Pool Party Guidelines

Most neighborhoods and clubs require that you notify them before booking a lifeguard. Booking a lifeguard with SwimAtlanta does not mean that you have reserved the actual pool facility. Please contact your the board of directors to get their approval and reservation of the facility before arranging for the lifeguard.

We cannot provide lifeguard supervision for pools/communities not currently managed by SwimAtlanta Pool Management-Gwinnett.

If your pool is managed by SwimAtlanta, you must notify us of any party that you are planning on hosting whether or not a lifeguard is required.

- Pool parties must be scheduled a minimum of **two weeks** in advance.
- Pool Party Request Forms must be completed and received by the SwimAtlanta office to be scheduled.
- You must also contact your neighborhood pool chairperson/property management company to inform them of your party.
- **A pool party is not confirmed until you receive a phone call from the SwimAtlanta office.**
- The party sponsor is responsible for helping clean up after the party.
- Due to insurance requirements, there are absolutely no exceptions on the number of lifeguards per party. The total number of attendees includes everyone attending the party, not the estimated number of swimmers.

You must call 678-985-4030 and give at least 24 hours notice of a canceled party to avoid charges. Please call for any cancellation, including inclement weather.

Rate: \$22.00 per guard per hour
\$44.00 (if alcohol is permitted)

Special Circumstances Requiring Additional Staffing/Costs:

- One (1) additional lifeguard is required for any party involving teenagers, college-age people, or parties involving alcohol.
- For a party involving children, the party sponsor must have one adult chaperone for every 10 children under age of 18
- If additional clean-up time is required, party sponsor is responsible for paying the lifeguards for the additional clean-up time (i.e., 2 lifeguards for 30 minutes of clean-up time = cost \$22.00).

How Many Lifeguards Do You Need?

Number of People Attending Party	Number of ADDITIONAL Lifeguards Required
1-25	1
26-50	2
61-100	3
101+	4

Steps to Determine Pool Party Cost:

Example:

You are having a pool party from 1pm-3pm and will have 35 people. Following the chart above, you will need two additional lifeguards.

- Number of additional lifeguards required = 2
- Cost per lifeguard hour = \$22.00
- Total price per hour for two lifeguards = \$44.00
- Number of hours for the pool party = 2
- Total cost of lifeguards, \$44/hr. x 2 hrs. = \$88.00
